TAXI BOAT

TAXI BOAT

Latitude 46 is a French shipyard created in 1987 to build pleasure sail and power boats from 20' to 70' using modern technology on classic design.

Manufactured from the hull of our Andreyale range of power boats created by Joubert, Latitude 46 has designed Taxi boat.

The Taxi Boat was created for passenger transport in adequacy your luxury hotel. The beauty of the boat is in her elegance, comfort and prestige. This concept and the design is customized from 30' to 70' for your utilization, inter island, passenger sea promenade, liaison between hotel and continent or airport, visiting, to adapted your exact needs of your hotel.

The shipyard has the experience to build powerful boats and supervise all the regulations of a passenger transport boats required.

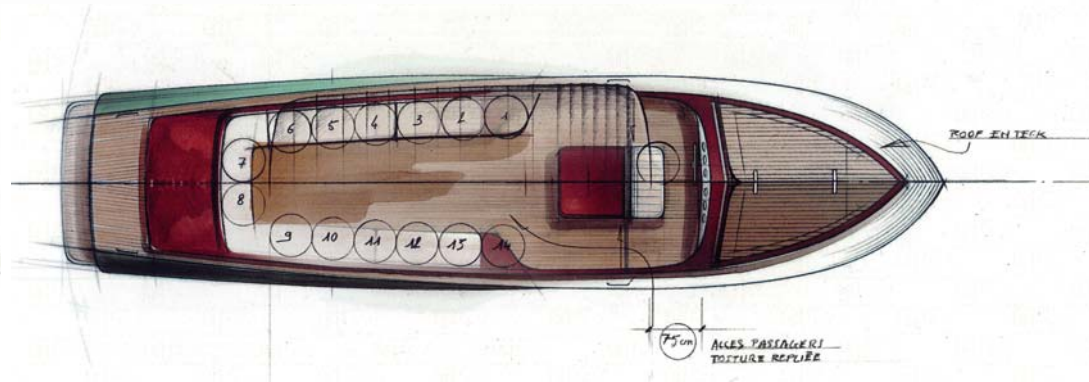

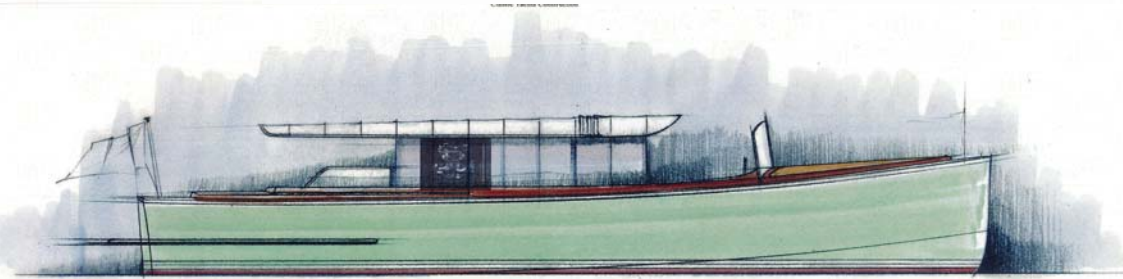

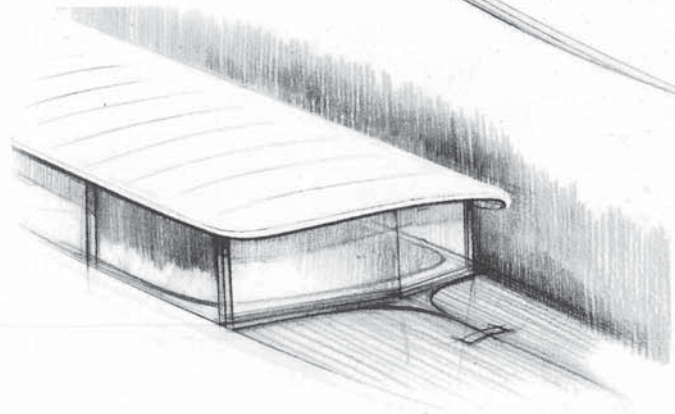

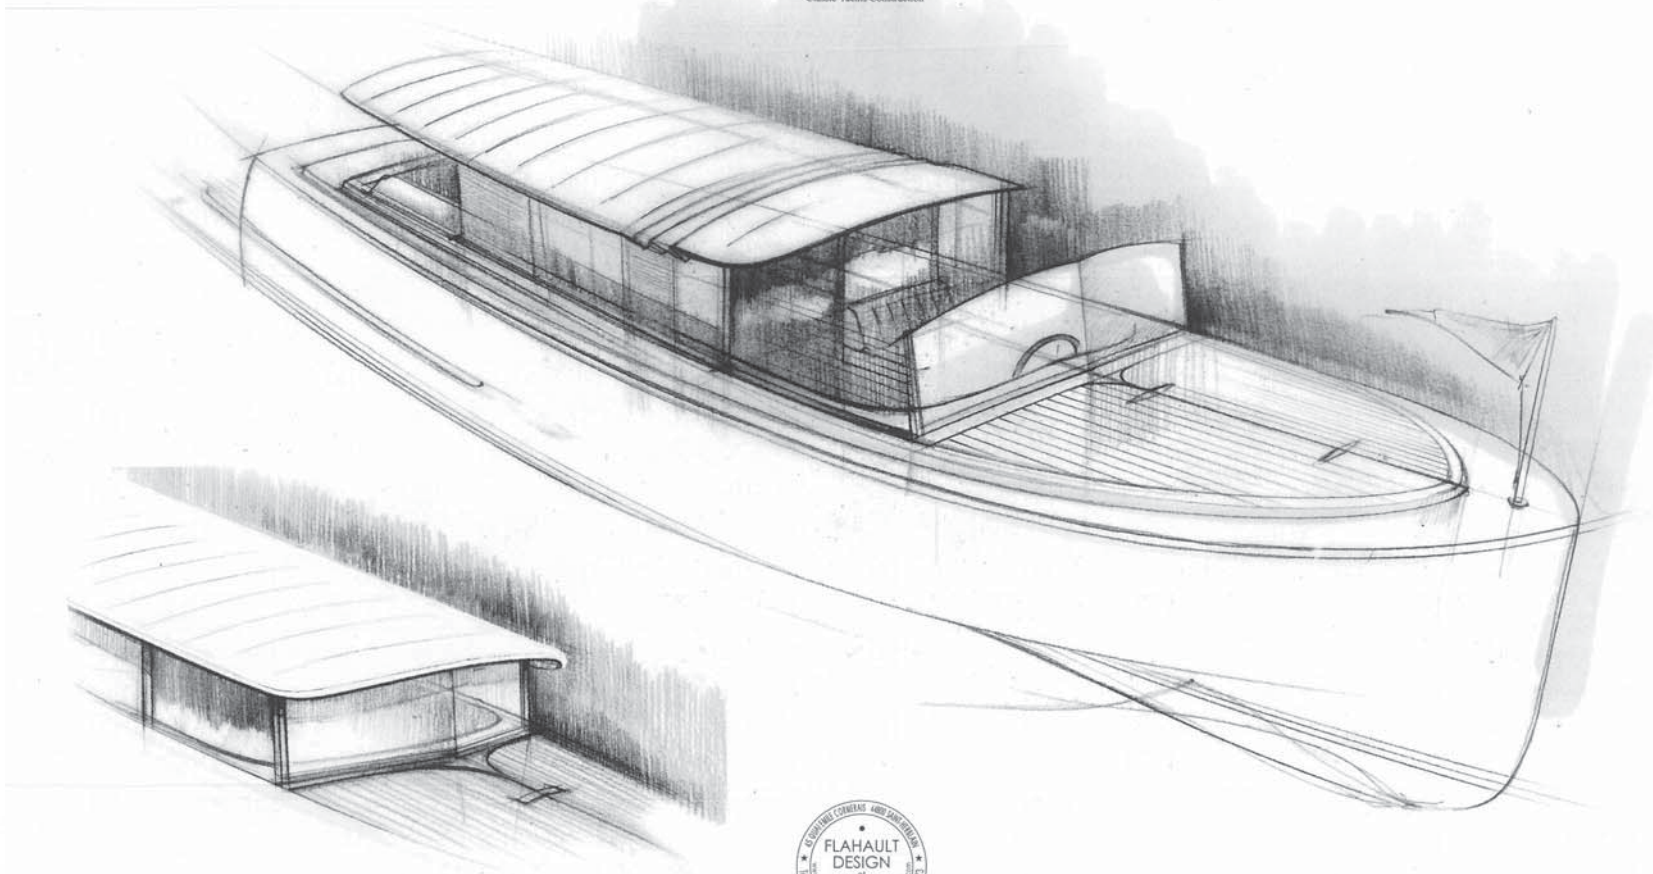

We already built around 10 boats who are now all around the world: Geneva, USA, Bora bora in French Polynesia, Croatia.

This range benefits of the knowledge and experiences of the Latitude 46 shipyard, especially for:

- Fiberglass
- Polyester
- Cabinetmaking
- Varnished mahogany and teak
- Capacity of customized

You can find on the following pages the different models we already built and the ideas we could develop.
